October 2009

Our volunteer engineers serving the Lord on the equator

Engineers, with Len, planning for travel to the Bethesda Hospital in Borneo, August 2009

- ✦ John designed the waste water system
- ✦ Andy designed the potable water system
- ✦ Rebecca did the needed data entry for the Pharmacy inventory
- ✦ Bob designed the electrical system
- ✦ What will the engineers do next? They will give another 300 professional hours of engineering for communications, engineering, reports, details, and drawings for the urgently needed improvements to the hospital infrastructure

We were invited to send a multi-discipline team of volunteer engineers to go, pray, plan, and recommend urgently needed solutions to infrastructure problems at the entire campus.

Upon returning, John told about the joy of telling their salvation testimonies to the new nursing school class”

Andy, Rebecca, and Bob said: *“The hospital is a beautiful place...with beautiful people giving excellent health care...but they have a lot of needs....glad we go to could help them...”*

Please pray for our engineers who went according to the love of Christ:
“...not to be served but to serve...” (Mark 10:45)

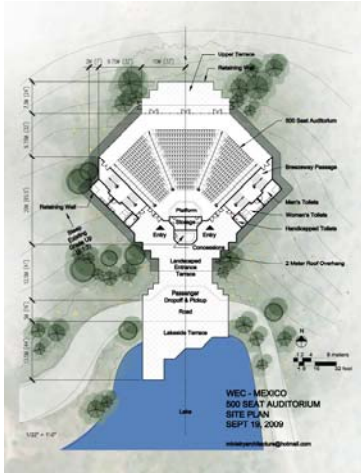

The 100-bed Bethesda Hospital is in the jungle of west Borneo---they serve 25,000 patients every year---no one is turned away---they see an average of 15 salvations occur each month---their public health outreach goes to 70 remote villages with guidance for maternal care, child development, and education.

Take a look at their informative website www.borneohospital.com

Other global MINISTRY NEWS:

Mexico: The WEC Missionary Training College, in the mountains south of Cuernavaca, is continuing to prepare and send Mexican believers to the Muslim world.

This summer we designed a 500-seat Auditorium with volunteer architect Ryan Meeks

Also, a needed Staff Duplex, to house two career-missionary Bible teachers Jenny from England and Ok Soon from Korea, was designed with volunteer architect Mark Rudolf

Kenya: The YWAM Missions station on the shores of Lake Victoria is blessed by the Lord and accomplishing so much.

- A large donation has just been given for the YWAM Multi-Purpose Camp. This will enable the Camp to be built! We are so grateful for what the Lord has done.
- Missionaries Don and Nancy Richards and their loyal Kenyan staff, living by faith, are teaching, serving and saving the dear orphans in the Mbita Suba District
- Please look up the exciting news at their website and consider prayer for their strength and money for their work www.missionwild.org

Yours, in Christ, Len and Mary Rosenberg
